

Materials List

- Any brand of gel plate. I recommend “Gelli Arts” brand Gel Printing Plate - 8" X 10" Gel Plate on Amazon <https://a.co/d/4SL4rCA> .
- Soft Rubber Brayer (any brand) like this Speedball <https://a.co/d/5BLFfd5>
- Acrylic paints in a variety of colors and transparencies: transparent, semi-transparent and opaque. You probably have these already unless you are just getting started with acrylics. I will put out some colors and types for you to try too. If you are starting from scratch, I suggest [Amsterdam Standard Series Acrylic Primary Set](#) (5 colors with opacities from transparent to semi-transparent to opaque)
- Paper: regular copy/printer paper, any weight, from Amazon, Target, Office Depot, or wherever you buy paper. You are welcome to bring card stock, tea bag paper, rice paper, printmaking paper or any paper you enjoy using to make finished prints as well. Bring what you have, no need to buy anything new.
- Deli paper (I will provide this, but if you want your own stash, you can go to Smart & Final, look down low on the shelf by Saran Wrap and Aluminum Foil). Important for this class as we will be removing paint layers.
- Scissors
- Masking tape (blue or tan, any is fine)
- Baby wipes (to clean your plate and hands)
- Optional: fall leaves or other botanicals. I will bring fall leaves I have been collecting, and if you have something in your garden you want to try, or to share, the more the merrier! Important: No thorns or sharp bits – they can cut your gel plate or your fingers

If you have questions, you can email me before the class at karen_paints@yahoo.com
